A Safe and Loving Environment

Children's Academy appreciates that being a parent is difficult in today's busy world.

Since 1974, Ron and Barbara Sams have worked together to develop Children's Academy with consistently high standards of care and education that they wanted for their own five children. Children's Academy began as a result of our family's wanting to provide a first-rate, comprehensive childcare program so desperately needed by an increasing number of working parents. Our school combines a safe, nurturing, developmentally sound environment with a solid growth curriculum. This is accomplished by professional administration of planned weekly lesson plans which include creative art, math concepts, language skills, manipulatives (for hand and eye coordination), music, science, dramatics, nutrition, health, and physical education. We provide the ultimate in outdoor and indoor play equipment and visual aids including a theater room. Our facilities are located on five, beautiful acres with mature trees, new expansive play equipment, and seating areas.

A+ Staff and Administration

In order to offer the community top-quality childcare, it is our priority to surround children with staff of integrity and imagination who are trained to recognize each stage of children's development and to plan programs accordingly. It is equally important, we believe, to have employees who have a genuine concern for, and sensitivity toward, each child. Our experienced teaching teams are aware that children need openness and freedom; however, they also need the safety of limits and guidelines and which are firm, but flexible enough to allow for trial and error. In order for the individual child to learn, the staff allows him or her to progress without pressure within a secure environment where the child can observe, ask questions,

experiment, play, make mistakes and discover.

The majority of our staff have been employed by Children's Academy for an extended amount of time, several as long as 20+ years.

FAMILY OWNED AND OPERATED

Goals of Children's Academy

- To help children be at ease about being away from home, to learn to work and play independently, and to be able to accept guidance from adults.
- To develop self-help abilities and habits of safety, good nutrition, and cleanliness.
- To encourage creativity and self-expression.
- To develop curiosity- the urge to explore and seek answers.
- To encourage the child's desire to learn, to enhance their ability to think and to reason, and to expand their mental processes.
- To develop language skills for both speaking and listening.
- To involve children in varied experiences which will increase their knowledge and understanding of their world.
- To develop self-identity and a view of themselves as having competence and worth through warmth, recognition, and the providing of successful experiences.
- To develop self-discipline and to grow in ability to channel destructive impulses.
- To learn to live effectively with other children, to work and play cooperatively, and to value one's own rights as well as others.
- To assist parents in positive ways during their children's formative years.
